Respected GS Sir,

i would like to convey my sincere gratitude towards sincere work being done by our esteemed organization. I would like to draw your kind attention towards some discrepancies in proposed revision in MTRR-2009 which needs immediate attention & correction.

1. For the proposed MTRR-2009 for DGM (finance) qualification has been mentioned as M Com/ CA/ CS, here the management has deliberately avoided candidature of employees having qualification of MBA (finance). In contemporary industrial scenario no where MBA (finance) is not accepted as desirable qualification for financial managers. BSNL should also give due weight-age to MBA (finance) & employees having qualification of MBA (Finance) should be allowed to appear in exam for DGM (Finance).

2. In MTRR-2009 for Electrical stream, desired qualification has been prescribed as Degree in Electrical Engineering, here candidature of employees having degree in Mechanical Engineering has been sabotaged. In electrical wing a no. of executives are having degree in Mechanical Engineering with vast experience in wing. Electrical wing of BSNL is looking after Electromechanical services of BSNL & a no. of jobs such as DG sets, air conditioning, lifts, pumps etc needs expertise in Mechanical Engineering, hence it is requested to add degree in Mechanical Engineering also among the desired qualification.

Anticipating a favorable support.

Thanking You,

Rajesh Pathak
